Na de straatnamen, de televisieseries en de standbeelden zal het aan de boeken zijn. En dan uiteindelijk aan ons. Tot onze hele beschaving uitgewist is. Als het fascisme ooit terugkeert, zal het zich anti-fascisme noemen.

Translation: 'After the names of the streets, the television shows and the statues, they will come after the books, and eventually after us. Until our whole civilization is erased. If fascism ever were to return, it will call itself anti-fascism'

- Context: Black Lives Matter-vandalism in Brussels. Statues were torn down. Shops were looted.
